

# Save \$500-\$1500 Package Pricing

## Material Measuring Software

We have stone blending down to a science!

How accurate is your Mason when he measures your job and prepares your Invoice?

**Did your Brick Supplier show you how to save \$1000-\$2000 by using a brick that is 3/8" longer?**

GPS tracks documenting the driver's route and time. This information is linked to your invoice for future reference!

## Advanced Dispatching Software

Driver takes photos of Delivered Materials at the jobsite which are then synced to the invoice for future reference. This helps with accountability, quality control, and material matching in a timely manner.

Ever wonder if your supplier forgot your lintels or were they stolen?
